

Alex Chen

Full-Stack Developer | AI Enthusiast | Open Source Contributor

alex.chen@example.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Full-stack engineer with 8 years of software development experience, specializing in modern web technologies and AI application integration. Proficient in frontend and backend development, API design, and cloud deployment. Currently focused on AI-assisted development tools and workflow automation, with active participation in open source communities.

Core Skills

Languages: TypeScript (Expert) | Python (Advanced) | JavaScript (Advanced) | Go (Intermediate) | Shell Scripting

Web Frameworks & Frontend: Vue.js 3 | Flask / FastAPI | TailwindCSS | Bootstrap | Vite

AI-Native Engineering: Claude Code | Gemini CLI | SDD | AI Skills | Vibe Coding | AI Agents | MCP

Specializations: Web Architecture | Cloud Deployment | AI/LLM Integration | REST API Design | Real-time Systems

Work Experience

Senior Frontend Engineer | TechCorp Inc.

2021 - Present (4 years)

- Led migration from Vue 2 to Vue 3 + TypeScript, improving code quality and development efficiency
- Implemented Code Splitting and Lazy Loading strategies, reducing initial load time by 40%
- Introduced AI-assisted Code Review workflows, enhancing team code quality

Full-Stack Engineer | WebStudio Co.

2018 - 2021 (3 years)

- Designed and implemented RESTful APIs serving 10+ frontend applications
- Optimized PostgreSQL query performance, reducing critical API response times by 60%
- Tech stack: Vue.js, Node.js, PostgreSQL, Docker

Junior Engineer | StartupHub

2017 - 2018 (1 year)

- Contributed to internal management system development (React, Express, MongoDB)
- Responsible for frontend component development and unit test writing

Education

Sample University | BS in Computer Science and Engineering

2013 - 2017

- Focused on Software Engineering and Distributed Systems; capstone project delivered a collaborative task-management platform with Vue.js and Node.js
- GPA 3.8 / 4.0; received Dean's List honors for two consecutive semesters

Sample Senior High School | Science Track

2010 - 2013

- Served as Vice President of the Computer Science Club; organized campus hackathons and beginner programming workshops

Featured Projects

TaskBoard Pro — Team Task Management Platform

Kanban-style project management with drag-and-drop interface, real-time multi-user collaboration, and progress tracking via WebSocket. **Tech:** Vue 3, Node.js, WebSocket, PostgreSQL | [GitHub](#)

WeatherDash — AI Weather Forecast Dashboard

Integrates 3 weather data sources with AI-enhanced analysis. Built with FastAPI backend. **Tech:** Python, FastAPI, AI, REST API | [GitHub](#)

DevToolkit — Developer Productivity Toolkit

CLI tool combining code formatting, JSON validation, and API testing utilities. **Tech:** Python, CLI | [GitHub](#)
